Point of Sale Software

Invoicing that includes sales, returns, voids, special orders, salesperson tracking, divisions, multiple payment options, till reconciliation, advanced taxing, gift cards, fast customer entry, sales prompts, plus a lot of discount options all at your fingertips with Shaman point of sale software.

Inventory Management

Managing your inventory has never been easier with our pos software. Stay on top of your business with purchasing and receiving including: auto purchasing assistance, transfers, custom barcode label printing, serialized inventory, case lots, built-in physical inventory, and more!

What are my best-selling products? Which items are not selling? How often do my customers buy?

- Enhanced Reporting
- Gain marketing insights
- Measure customer demand

Items sold, total sales over any period of time and profits, everything you need to know about your POS is right here in the system. Shaman POS generates and lets you export all the reports you need to grow your business.

- See how your stores are performing
- Export reports in your preferred format
- Check your data across locations

Employee performance

Identify the strengths and weaknesses of your employees to build the perfect team. See when they are working, when they are selling, who discounts the most and train them to be more efficient.

- Check sales per employee
- Plan for rush hours
- See the average transaction value

Mobile

The Shaman POS allows you to connect your point of sale software database to an iPad, iPhone or Android to process sales and control inventory anywhere within the store or remote location.

Customer Tracking

You need a point of sale system that keeps your customers coming back with rewards and loyalty programs, targeted marketing, memberships, preferred pricing, price codes, special orders and drop shipments. Make your life easier with an assigned sales representative, optional stored credit cards, best-customer reporting, tax preferences, and clerk notifications.

Custom Reports

The Shaman point of sale software has no shortage when it comes to reports. You can choose from our many "built-in" reports with custom options, including filtering and grouping.

Accounting Integration

Shaman point of sale system gives you the tools to export daily sales, deposits, and payables directly into your accounting software.

Costs & Integration Time

The Shaman POS is "turn-key" and allows you to start selling quicker than other competing systems. Our average turnaround time is 72 hours (3-day) setup with an approved merchant account through U.S. Bank.
